The **Sword Animation Pack** offers a dynamic set of 15 high-quality animations designed to bring your sword-wielding characters to life. Whether you're working on an RPG, action game, or any other project that requires smooth and realistic sword combat animations, this pack has you covered. The animations in this free pack are carefully crafted to give your characters a fluid, professional look and feel.

## Included Animations:

1. **Idle** – A natural standing pose for your character, perfect for moments of stillness when the action is paused.
2. **Run** – A smooth and responsive running animation, designed to capture the fast pace of a sword-wielding hero in motion.
3. **Attack** – A dynamic sword strike animation, delivering powerful movements for combat scenes.
4. **Block** – A defensive stance to block incoming attacks, adding a layer of realism and strategy to combat.
5. **React** – A quick response animation, showing your character reacting to a hit or impact.
6. **Special Attack** – An exciting and powerful special move, designed for those big, cinematic combat moments.
7. **Hit** – A strong reaction animation showing your character taking a hit from an enemy attack.
